Subject: Testimony regarding pre-established work scheduling

To the friends of Connecticut's workforce :

My wife works for Stop & Shop - a fairly large employer in Connecticut. She has received her scheduled hours two weeks in advance for quite some time from Stop & Shop. This action on Stop & Shop's part has a very beneficial stabilizing effect on the lives of our family. It allows all of us to plan our scheduling more efficiently, In short, it is family-friendly - and reflects in her being a more productive employee - making her employer a stronger one.

I believe this behavior should be encouraged by our State Legislature by codifying it into law.

Thank You.

David Stevenson
